### **Abstract**

This in the article now global period science and \_ technique development as a result social of networks public culture in the interpretation in the family children education effect about word is maintained;

**Keywords** : public culture, social network, manners, science and \_ technique progress, knowledge;

### **INTRODUCTION**

Us always thinking coming again one the important issue is this of our youth manners, behavior, one word with in other words, worldview with depend Today time intensity with is changing[1]. These changes who feels more than anyone else who are young people. Okay, young people own of the era requirements with harmonious let it be But the same at the time do n't forget yourself. Who we are, how we are of the nobles our generation \_ invitation their in the heart always echo giving to himself loyal to stay therefore let it stand To this of what at the expense of can we reach Education, upbringing and only education at the expense of "- he said were Uzbekistan Republic President Sh. Mirziyoyev.

### **DISCUSSION AND DEBATE**

People from long ago their children a lot of them aids and heavy ones light to do with proud of those who came. Child education the most important aspect, this of parents patient, calmness and is in harmony. But family restless if so, the child is not in kindergarten, no at school and neither external in life himself behavior and perception answer give takes \_ Such in the environment grew up of the child nervous tired , tired being remains and he is an adult after reaching after arbitrariness with abnormal and illegal affairs until done go enough[3].

In society of the family place in the family a child education importance big \_ Human life different from stages passes. These are between the most important youth stage. This period very thin period being human \_ to power paying, of life different from the trails past going period is also Here it is that's it period to him in the family very big

attention show, parents, teachers, education institutions life at the intersections his own worthy place knowing get, spiritual perfect being growing up, around to people attitude set in getting helper to be it is necessary Because in the future decency, knowledge, honesty, truthfulness such as of virtues the owner to be here it is that's it small society was - family and knowledge starts from the scaffolding[4].

Children of the nation the future that it was for both of them education serious importance to be given it is necessary Human in the future how person being to grow youth from the era know starts \_ In his youth in it formed adjectives whole lifetime during companion will be Here it is that's it in the society because of the reason of young people polite, intelligent, honest, educated a person to be for movement will be done. But above mention done from considerations outside stay , family and education in their homes children careless if left, educate the opposite has been negative consequences take will come In this regard of parents of his child who are with friend eclipse, empty the time how spending time \_ to what that he spends, his lessons mastery to the likes hard attention to give must will be[5].

Place when it comes beautiful advice manners by teaching are going need \_ Luqmoni hakim also to his son beautiful advice says: " Hey , my son , doubt ." no , if it is like a mustard ( plant ) seed ( good or bad action if it is to be done, it is ( action ) but inside the rock either in the heavens or Earth under if there is , that is also God brings \_ No , God gracious and alert is a breed. Hey , my son , pray do it perfectly , to the good order and from evil return and to yourself to reach ( problems ) . patience do it ! Of course , here it is that's it of work is thorough. Face people ( arrogantly ) . do not twist and On the ground shrunk do n't walk because Allah \_ all arrogant, boastful someone do n't sleep ( When you walk ) medium case walk and lower your voice. because, of votes the most unpleasant donkeys is his voice. (Lukman sura, verses 16-19)[6].

Family upbringing such as big responsibility the first in line father and mother undertake falls \_ That's it in place one thing separately to say should be, children in education main impressive power this is Mother. The father is many in nations of the family material needs satisfy and to provide, moreover of the family economy works will be busy with This is Uzbek of their families from history known was \_ truth and from our fathers and grandfathers heritage being the rest is a tradition . That's it according to the child more mother together will be After all our people: " Milk with entered soul with It's not for nothing that it comes out did n't say High morals beliefs to the child 's soul more mother milk with enters Family in education right or curve to grow gardener work and skill depend Curved growing up of the sprout tall correct if not, it is wrong grows[7].

New born a baby upbringing with that's it young sprout status in the middle some kind of similarity there is From this apparently as it is , of morals norms - for adults respect to the little ones compassion, honesty , honesty , hard work and that's it etc from the family begins. This is a mention done pedagogical philosophical concepts family of the leader outlook with closely depends.

Today's in the day social networks of our lives indispensable to the part turning around managed to Of course, theirs to himself okay positive and negative has aspects. Moreover present while internet, mobile telephones through person infamous doer lewd of images spreading and becoming popular going the world community to worry is putting the internet is big market is there \_ client to himself necessary all information find , " spider virtual world named " net ". through wanted pictures to see or wanted videos watch It is also a global network \_ through mutually communication make, various in the subject thought exchange, etc themselves for acquaintances to find that it is possible attention was directed.

Also, the Internet and social networks full black in favor of not to be, people from him how on purpose that he is using looking, positive or negative price given today \_ like "Facebook", "Telegram", " Youtube ". another social in networks quite a bit useful the presence of information about data given \_

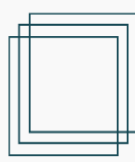

In fact, teenagers are 15-20 years old change period will be on the Internet promiscuity promote doer sites, to communities member and them \_ constant watching and watching going people, in particular young people there photos, videos to see how much negative consequences take to come know it is necessary

Some public information tools social "death "in networks groups" activity conduct they emphasize \_ own to his soul intention to do promote does and the children own to his soul intention to do encourages. Rospotrebnadzor in 2016 life optional respectively leave to reach propaganda doer and his different methods descriptive of materials from three from one more VKontakte social in the network collected said. From June 7, 2017 starting from in Russia Death on the Internet groups \_ \_ organize arrival for criminal liability about the law to power entered , it is up to 6 years prison punishment in the eye holds.

Although public \_ information in the means, " Public " culture ". popularity young people between absorbed gone although - his to education opposite is negative \_ effects now debate be done started \_ West from culture example takin, dressing, handling, walking, greeting such as circumstances to the eye is being thrown. As a result, slowness with of morality negative towards change from our ancestors continue reached coming values , traditions forget it being is going

## **CONCLUSION**

A child in education of influence again one the cause is the Internet, mobile phone telephone and in them different social from networks inappropriate use being is coming Of these tools fruitful using , huge to achievements reach with together wrong using spiritual \_ and material from the side harm cause do n't even forget that it's coming out not to issue need \_ Today's per day on the Internet given going different information in the stream right data with the wrong one separate get , right and

purposeful use very important importance occupation is enough That's why for children to websites at the entrance from information right and purposeful use culture upgrade necessary.
